I was very pleased to receive your card and to hear that you were not offended. You are very stupid not to have thought so, saying that you knew me well enough to know that I had not meant it. Well my dear I am back from my holiday & I thought very strange, as being on holiday you would no doubt have many interesting things to write about. However it all right now. I hope you have enjoyed your holiday. Kings day here is Tuesday, March 1, & he will be here only a few hours; will write and tell you all about it after-wards. This morning I started up my last year's repetition, & am ready to begin this season's photography, but I wonder where my chief hunting ground will be this year. "Make hunts" and "Be quick" are out of date now; "Hide and Seek" and "Church upstairs" are two of the latest. Hope all are well.

Yours

Valter.
